

Homeless Shelter of Musa in Kyrgyzstan

Musa, the leader of a homeless shelter in Kyrgyz, 52 years old, married and has three children. Since five years he is leading this homeless shelter with his family.

In earlier days, he worked for the police but then started to drink and finally was living on the street himself. Through faith in God his life radically changed, so that he was united with his family again, completed a bible school and finally funded a homeless shelter.

Musa is leading this homeless shelter in a very cultural sensitive way and according individual needs of the people living in the shelter. For e.g. one woman already lives in the shelter for 3 years, did marry another resident and together they have now a daughter. Others are coming only for a shorter period of time, until they are united with their families again or find a job and place to live by themselves. A few unfortunately also go back to live on the street again. However it is again and again great to see what God through his grace is doing in the lives of many homeless people and how life and relationships are restored again.

Currently there are children and adults living in the homeless shelter. The homeless shelter is very simple arranged but slowly step by step developing. E.g. they have been able to buy an old oven in order for them to bake their bread for themselves. They have chickens, sheep's, goats and cows for self supply. They also have a saw mill in order to earn some money. Last year a water pipe has been installed to have running water, a bathing house was completed and additional land was purchased to help them establish a garden.

Besides all this progress, unfortunately the residents still live in a temporary shelter and therefore a building project was planned to provide the residents with a decent living place.

We hope to build the projected living house this spring / summer and are thankful for all donations.

Cost for the building project approx. 50,000 USD

We already have 10,000 USD.

We are very thankful for all donations.

If you have any questions please send an email to Heini Schranz: hbschranz@swissmail.org
